

Startup Welcome Package Batch#7

Startups

🚀 One sentence pitch

Secure, blockchain-based file storage and sharing solution optimized for IoT systems and critical data scenarios.

🚀 Product & Business Model

- **Product:** Decentralized storage using blockchain, IPFS, and encryption for secure data management.
- **Business Model:** B2B/B2C, SaaS platform with token-based incentives for secure storage and retrieval operations.

🚀 Unique Value Proposition:

- **Secure & Decentralized** – Blockchain-backed encrypted storage.
- **IoT-Optimized & Scalable** – Efficient for connected devices.
- **Token Incentives** – Rewards for secure storage & retrieval.

🚀 Customers & references :

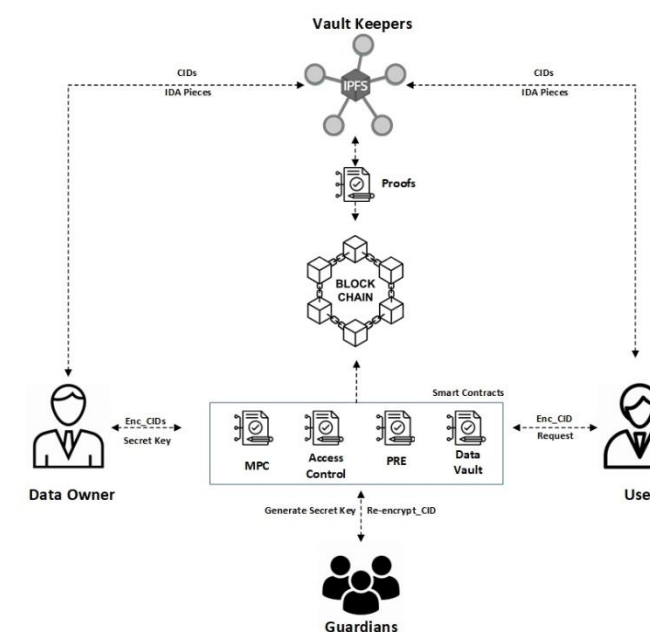

- **Automotive & Manufacturing:** Secure storage for connected vehicles & smart factories.
- **Healthcare & MedTech:** Encrypted storage for IoT-enabled healthcare.
- **Government & Smart Cities:** Scalable storage for IoT infrastructure.

Key Facts:

- *Founded: Barcelona, Spain, 2024*
- *Focused on IoT integration, scalable security, and user-friendly storage.*
- *Knowledge-Based Company originated from the UPC university.*

What kind of multipliers are you looking for?

- Business growth multipliers for more revenue
- Investment multipliers for funding leverage
