

🚀 One sentence pitch

GreenCoat enables savings for you while saving the planet through our plasma coating smart solution that maximises the energy efficiency of buildings.

🚀 Product & Business Model

- Retrofittable plasma coating smart window – offered a fixed price
- Connected IoT and data analytics – “smart windows as a service” where users pay a monthly subscription priced according to their needs

🚀 Unique Value Proposition:

- Cheaper – retrofittable, innovative low-cost material used
- Greener - our HiPIMS Deposition method eliminates the use of indium tin oxide
- Smarter – connected IoT analytics allows users to track the savings in real time

🚀 Customers & references :

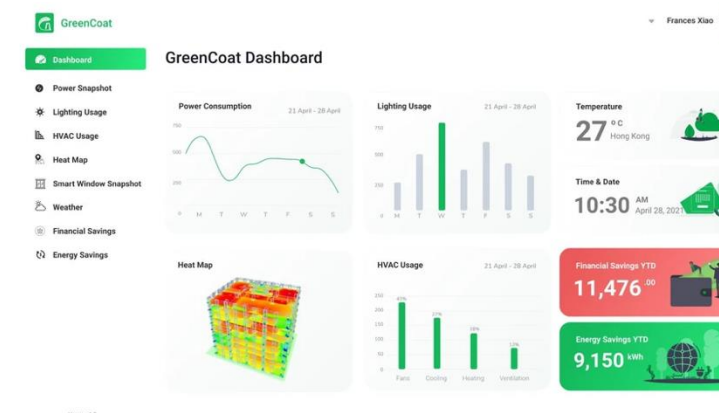

- REITs
- Commercial Real Estate developers and property managers
- Residential owners
- Universities

Key Facts:

- *HiPIMS stands for High Power Impulse Magnetron Sputtering*
- *Global Finalist - HKSTP EPiC 2024, LKYGBC 2023*
- *National Winner – Climate-KIC Climate Launchpad Australia*

What kind of multipliers are you looking for?

- Introductions to local partners including manufacturing and R&D
- Customers in Stuttgart
- Local talent
